NLG 360 D Ring Loop Tool Tether

Product code: 101363

PRODUCT BRIEF / 101363

The 360 D Ring Loop Tool Tether is the fastest way to create an anti-tangle tether point on tools with a captive hole or handle.

NLG's 360 D Ring Loop Tool Tether is the no-fuss option – create a tether point on any tool with a captive hole or handle and cinch it around the tool itself. Whatever method is used, a secure tether point is made in seconds. As part of NLG's unique tool tethering system, tools can be prepared off site for immediate connection to an approved tool lanyard once on site.

Simple but effective as a retrofit device, the NLG 360 D-Ring allows tools to rotate through 360 degrees with its anti-tangle swivel. This avoids the frustration of twisted lanyards found with many tool tethering options on the market today and simultaneously improves productivity.

The NLG 360 D Ring creates a professional solution that is certified and third party tested and suitable for tools up to 3kg in weight – the height worker's true friend.

INSTRUCTIONS

- 1/ Pass the loop end through the captive handle or hole of the tool.
- 2/ Lift the D Ring end over the tool and pass through the open loop to create a cinch.
- 3/ Pull tightly to secure.
- 4/ Test the tether point before putting the tool into use.

INSPECTION

In addition to routine checks prior to each use, all equipment should undergo regular detailed inspection, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for thorough inspection.

Specification

- Robust, tangle-free 360° D Ring
- Faster visual inspections with contrast stitching
- Rugged climbing cord loop allows for quick cinching
- Unique serial number for easy identification and tracking
- CE marked
- ANSI/ISEA 121-2018 compliant
- Dynamic load tested and third-party certified (2:1 safety factor)
- Dimensions: 200mm x 25mm (cord loop: 130mm)
- Max Load: 3KG (6.6lbs)

MAX LOAD (SWL)

3KG / 6.6LBS

SERIAL NUMBERED

Makes the management of inspection routines and reports easy and traceable

02 / Product

CODE: 101363
 DESCRIPTION: 360 D Ring Loop Tool Tether
 LOAD RATING: 3 KG / 6.6 LBS

03 / Conformity

The undersigned acting on behalf of [01] above hereby declares that:

The PPE described in [02] is in conformity with the provision and scope of our quality control and testing protocols set out in the PPE Regulation (EU) 2016/425 covering all PPE manufacturing, where such is the case, with the standard of fit for purpose design parameters. The above referred to Personal Protective Equipment [02] is identical to the equipment independently tested and certified by BSTL in accordance with EN 364:1992 test methods.

Dynamic drop performance testing conducted at 2:1 weight safety factor for tool lanyards and tether points. Static strength testing conducted at 5:1 weight safety factor for containers and storage equipment.
