

NLG Tablet Case

Product code: 101384

The NLG Tablet Case makes it safe and easy to use iPads and other similarly sized electronic equipment when working at height.

With tablets, such as iPads, now being used widely for inspections and other tasks when working at height, NLG have created the NLG Tablet Case to eliminate the risk and expense of dropping them. The Tablet Case is simple to use and can be used with all types of tablet.

The NLG Tablet Case is a protective case, constructed from industrial grade neoprene and incorporates a 'soft touch' screen cover which retains all the functions of the tablet. Multiple camera apertures ensure that it is compatible with all the popular tablets on the market.

Complete with a shoulder strap, the Tablet case can be used as a stand-alone item or connected to a harness or belt with a tool lanyard.

INSPECTION

In addition to routine checks prior to each use, all equipment should undergo regular detailed inspection, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for thorough inspection.

Specification

- Designed to work with all popular tablets, such as iPad®, making it ideal for inspection work
- Soft Touch screen protector retains full touch functionality
- 3 Camera apertures for compatibility with common tablet camera positions
- Non-conductive, lightweight plastic D Ring attachment points
- Useful shoulder strap included for convenient carrying
- Unique serial number for easy identification and tracking
- CE marked
- ANSI/ISEA 121-2018 compliant
- Dynamic load tested and third-party certified (2:1 safety factor)
- Dimensions: 30cm (H) x 22cm (W)
- Max Load: 3kg (6.6lbs)

MAX LOAD (SWL)

3KG / 6.6LBS

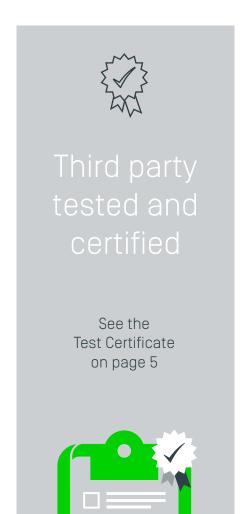

SERIAL NUMBERED

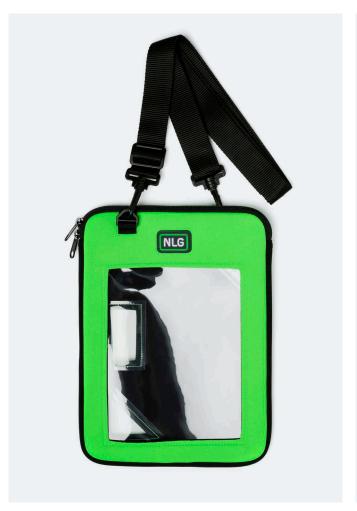

Makes the management of inspection routines and reports easy and traceable
