NLG Extended Bungee Tool Lanyard

101434

NLG Extended Bungee Tool Lanyard

Product code: 101434

The extra length of the
Extended Bungee Tool Lanyard
is ideal for reach tasks or
working directly from a height
safety tool bag.

The NLG Extended Bungee Lanyard reaches to 2m allowing heavier tools to be connected to anchor points, both on and off the user. It is ideally suited for attaching to connection points within NLG's range of bags for working at height including the ground-breaking Ascent Bucket™.

Equipped with the 360° Quick Clip™ connectors at each end, the NLG Extended Bungee Tool Lanyard remains tangle-free even when used with tools that must rotate freely such as screwdrivers, spanners etc.

Quick Clips™ are ergonomically designed for quick connection and disconnection with a built in trigger to facilitate use when wearing gloves.

INSPECTION

In addition to routine checks prior to each use, all equipment should undergo regular detailed inspection, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for thorough inspection.

Specification

- Reduced bungee tension allows for precision control and comfortable handling
- Equipped with Quick Clips™ for rapid connection and effortless use with gloves
- Extended product life with high strength, wear resistant webbing
- Faster visual inspections with contrast stitching
- Clever contrast wear indicators ensure early warning of any structural damage
- Unique serial number for easy identification and tracking
- CE marked
- Dynamic load tested and third party certified (2:1 safety factor)
- Dimensions: Extends 100cm to 210cm
- Max Load: 5KG (11lbs)

CODE: 101434
 DESCRIPTION: Extended Bungee Tool Lanyard
 LOAD RATING: 5 KG / 11 LBS

03 / Conformity

The undersigned acting on behalf of [01] above hereby declares that:

The PPE described in [02] is in conformity with the provision and scope of our quality control and testing protocols set out in the PPE Regulation (EU) 2016/425 covering all PPE manufacturing, where such is the case, with the standard of fit for purpose design parameters. The above referred to Personal Protective Equipment [02] is identical to the equipment independently tested and certified by BSTL in accordance with EN 364:1992 test methods.

Dynamic drop performance testing conducted at 2:1 weight safety factor for tool lanyards and tether points. Static strength testing conducted at 5:1 weight safety factor for containers and storage equipment.

CERTIFICATE NUMBER: 42815DT-NLG-133434
 ISSUED BY: BSTL, Whittle Road
 Ferndown Ind. Estate, BH217RL, UK

04 / Authorised Person

I herewith certify that the equipment identified above in [02] conforms to the requirements as detailed above:
