NLG Screwdriver Spin Tether™

101670

NLG Spin Tether™

Product code: 101670

PRODUCT BRIEF / 101670

The NLG Spin Tether™ is a convenient and durable way to securely tether screwdrivers of differing sizes.

The NLG Spin Tether is a screwdriver tether specifically designed to securely tether screwdrivers of differing diameters, without damaging or hindering usability of the tools.

When slotted onto the shaft of a screwdriver, the Spin Tether can be tightened to grip onto the tool, creating a super-strong hold.

INSTRUCTIONS

- 1/ Examine the screwdriver shaft and remove any dust, dirt or grease before installation.
- 2/ Unscrew the top of the spin tether to loosen grip before installation.
- 3/ Slide the Spin tether onto the screwdriver up to the desired tether point.
- 4/ Firmly tighten the top half of the tether to secure onto the tool.
- 5/ Attach screwdriver onto any secured NLG® Lanyard to complete the tethering system.

INSPECTION

In addition to routine checks prior to each use, all equipment should undergo regular detailed inspection, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for thorough inspection.

Specification

- 1 x NLG Spin Tether
- Fully adjustable, tightening application which fits shaft diameters 4mm to 9mm
- Non-conductive, non-metallic construction
- 1 size fits multiple tools. Screwdrivers, Allen Keys, Pens, etc
- Free spinning component, reduces risk of tangling
- Ergonomic grip for easy tightening
- Patent pending
- Constructed from heavy duty ABS which is both UV stabilised and mildew resistant
- Structurally engineered to withstand dynamic impact forces
- Load tested and third party certified [2:1 safety factor]
- Dimensions: 50mm [H] x 40mm [D]
- Max Load: 0.5KG [1.1lbs]

MAX LOAD [SWL]

0.5KG / 1.1 LBS

SERIAL NUMBERED

Makes the management of inspection routines and reports easy and traceable

D2 / Product

CODE: 101273
DESCRIPTION: Tether Ring, Medium
LOAD RATING: 1 KG / 2.2 LBS

D3 / Conformity

The undersigned acting on behalf of (D1) above hereby declares that:

The PPE described in (D2) is in conformity with the provision and scope of our quality control and testing protocols set out in the PPE Regulation (EU) 2016/425 covering all PPE manufacturing, where such is the case, with the standard of fit for purpose design parameters. The above referred to Personal Protective Equipment (D2) is identical to the equipment independently tested and certified by BSTL in accordance with EN 334:2002 test methods.

Dynamic drop performance testing conducted at 2:1 weight safety factor for tool lanyards and tether points. Static strength testing conducted at 6:1 weight safety factor for containers and storage equipment.
